## **DETAILED ACTION**

### ***Priority***

1. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 119(e) and 120 as follows:

An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence of the specification or in an application data sheet (37 CFR 1.78(a)(2) and (a)(5)).

### ***Drawings***

2. New corrected drawings are required in this application because the drawings as filed appear to be informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### ***Allowable Subject Matter***

3. Claims 1-7 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter: The prior art searched fails to indicate a system for remote emissions detection where the combined beam of ultraviolet and infrared radiation coming from a source is not split before entering at least one beam detector. Prior art references such as

Stedman et al. (5489777) uses a combination IR and UV beam to detect an emission characteristic in the plume of a vehicle however even though he does not split the beam before the beam enters a radiation module (16), the beam is split into its constituent UV and IR radiation before it enters the individual detectors.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: DiDomenico et al. (U. S. Patent 6307201).
6. This application is in condition for allowance except for the above presented formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
